SOCIAL CREDIT CONVENTION HELD IN LAC LA BICHE

LAC LA BICHE. — Beaver River constituency held its annual Social Credit convention in the Lac la Biche theatre on Thursday afternoon, Nov. 23.

In spite of the cold weather, a good turnout of delegates attended and all parts of the Constituency were represented.

After the usual formalities the meeting then dealt with several interesting resolutions concerning agriculture and various government services and then proceeded to the election of officers for the coming year. Mr. George Franchuk and Mr. Rudolph Michetti were returned as president and vice-president, and Mr. Carran became secretary-treasurer, and four district organizers were appointed to take charge of the work of the various groups.

Mr. Harry Lobay, MLA, then gave an interesting account of the year's accomplishments, dealing with finance, new road construction, the working of the new $1.00 per day hospital plan and the set-up of the new electoral riding of Lac La Biche, whose boundaries are to be from the Beaver River on the south to Fitzgerald and the North-west Territories on the north.

After the meeting the delegates and their friends were entertained by our genial MLA at the hotel.

Radio for Railways?

Some years ago an American statistician (a fiend who makes figures and percentages out of every human activity) figured that by comparison of death and accident figures a passenger in a Pullman car on a regularly scheduled passenger train was safer than he would be in his own home. A passenger, he said, on a regular flight of any domestic Airlines plane was safer than he'd be in his own automobile.

Last week a special flight missionary plane was lost on a mountain peak—all 21 passengers and crew perished. A special troop train met disaster with 20 dead in the Canadian rockies. A special Thanksgiving eve passenger train in eastern New York wrecked and took nearly 80 to their death.

It seems that special trains running at irregular times are more prone to accident than regular runs. But we think the CNR, Long Island Railroad and others could instal short wave radio on all locomotives. Under present system, once a train runs past a telegraph station there is no way to signal it until it gets to the next whistle stop. And then it may be too late. By short wave radio the dispatcher could easily intercept any train in his division at any point. Each moving train could be kept in touch by conversation between engineers with other trains, and avoid disaster due to incomplete or incorrect dispatch information.

More Men Wanted

Just as the 1950 harvest season draws to a disappointing close, with poor Alberta crops and poorer harvesting weather, a bright spot shines in the winter economy. Due to increased orders for lumber and pulp wood, more and more men are badly needed for the bush this winter.

The industry needs workers for all phases of the winter operation, and unskilled labour is at the present moment being combed among displaced persons in Europe. Certainly, with an expanding lumbering industry more men should be brought in from abroad if necessary to supply our requirements.

But the industry also needs young, healthy and intelligent Canadians who will make a career of the business. Men who can take charge of work parties, scalers and timbermen are wanted.

Near Petawawa, Ontario, a clump of pine 200 years old is meeting the woodsmen's axe this winter. There are thousands of acres of good standing timber here in Alberta that can be translated into more purchasing power for our province. Young men and older men too, who are not tied down to the farm for the winter months should make application for a winter lumbering job. Good wages are paid and food and lodging is provided.

The late harvest has retarded the seasonal drift to the bush, so able workers should go in as soon as possible.

Scriptural Meditations

"Our God is a tender, merciful Father. His services should not be looked upon as heart-saddening, distressing exercise. It should be a pleasure to worship the Lord and to take part in his work. God would not have his children, for whom so great salvation has been provided, act as if he were a hard, exacting taskmaster. He is their best friend; and when they worship him, he expects to be with them, to bless and comfort them, filling their hearts with joy and love. The Lord desires his children to take comfort in his service, and to find more pleasure than hardship in his work. He desires that those who come to worship him shall carry away with them precious thoughts of his care and love, that they may be cheered in all the employment of daily life, that they may have grace to deal honestly and faithfully in all things."

Note and Comment

FOR CHRISTMAS?

Rt. Hon. J. G. Gardiner, federal minister of agriculture, thinks there is still a chance of increased funds being made available for the final Wheat Board payment. Let's hope the funds can be "made available" in time for Christmas (1950)!

PERMANENCY

A newspaper advertisement is different to a "plug" on the radio. If you aren't listening intently when it's on the air, you miss it. But a message in the paper is permanent, because the paper can be kept indefinitely.

Only God Can Make You Sober

By T. W. PUE

Brother, if you're an alcoholic, you need conviction in your heart and soul. You've got to quit making promises and make a decision. You've got to quit your crooked thinking that you are the master and frankly and humbly admit you're the mastered.

If this sounds like a preacher talking to you, and you like to hear preachers, okey. But this is no preacher and it's not me that's telling you. It's a brother alcoholic like yourself, who came to realize it was the first drink he took that was driving him to hell, and who is telling you straight from the shoulder, you need a Higher Power to save you from your utterly hopeless condition. Who is this fellow? What's his name I can't tell you his name, because he remains Anonymous. But I was talking to him today and he tells me if you honestly want to quit drinking he'll help you. His address is Alcoholics Anonymous, 9823 108 Street, P.O. Box 134, Edmonton.

If you'll quit evading the truth about your condition, and honestly admit you need help, he'll help you. But don't go to him and think you can fool him the way you fooled your wife and mother all these years with your lying promises, because he's got you sized up already. So don't think you can get help unless you're honestly willing to face the issue and tell the truth.

T. W. Pue

Your Need Is Spiritual

If you take Antabuse, you'll be on the wagon for a week, and then as soon as the drug wears off you'll be drunk again.

They've got a new fangled injection that writer Paul de Kruif has mentioned in Readers' Digest. But it won't help you. Your condition is physical, alright, but it's also spiritual. As members of A.A. say you've got to get "right thinking" and call on that Higher Power, which to you may be Jehovah, God, or Jesus Christ or whatever your conception of the Almighty is.

Without such spiritual reformation you'll be like the Edmonton alcoholic who, having taken the dry cure at Ponoka, got off the CPR train at South Edmonton Station instead of on the North side where his friends were waiting for him. He headed right for the Government Liquor Store and stumbled home hours later—four sheets to the wind.

Your Need Is Today

It isn't any use for you to swear off drinking forever. You know you've done it before, and you know you've never kept your oath or your promise. If you swear off again your lying, and you know it.

You know you can't drink like a normal person, so when you've admitted that much you've then got to refuse the first **drink. It's not the tenth,** twelfth or twentieth drink that does you harm. It's the first one. So, when you have this convicition, make a decision with God and yourself that **today** you won't drink. And each day humbly make that decision day after day. You'll find

—that He hath promised,
Power from above,
Undying sympathy, unchanging love.

Your Need Is Shared

Members of Alcoholics Anonymous are some of the finest men I've met. They know that as practising alcoholics they were dragged from gutter to prison cell and back to gutter again. Most hospitals don't like alcoholics, although some have wards for them. Anyway, hospitals only help patients out of the acute stages.

They know alcoholism is the fourth most dangerous fatal disease on this continent, but that doctors prefer to list secondary causes of death on certificates to save the feelings of loved ones.

They believe we need a more moderate approach to the drinking problem. They have ideas about improving our laws. But above everything else they know that they themselves can't drink—that they never can drink again.

They know that by helping others, they are "working out their own salvation." So—if you're one of those one-out-of-ten whose drinking is wrecking your life, and you are **honest** with yourself, call on the friendly A.A. members.

But if you aren't convinced you're an alcoholic, better wait. Wait until your wife leaves or divorces you. Wait until you lose your job. Wait until your children disown you. Wait until your creditors make life intolerable for you. But, please don't wait until your doctor fills out your death certificate.

A corpse doesn't drink, anyway.

I've just read in your paper letter that Socialized Hospital Service is better in England than free enterprise hospitals here. There is but one main cause of wars and misunderstandings — racial differences and prejudices. The only way to really unite this world will be through mass marriages among people of all races and nations. Then man will be very, very happy forever.

I was never more disgusted than when I read Mr. Pue's article supporting the power companies instead of a Government Power Commission. Just let this Government or any other give us another chance to vote and we'll get it!

Red vs Religion

In the view of the totalitarian governments, the bodies of their subjects belong to the state, for gun fodder or any other purpose. This is the one great reason why Communism cannot triumph. The Scriptures make the wise and consistent provision that the taxes of man belong to Caesar but his body to God. And religion has always been greater than any Caesar.

REDWATER SHIP TO CARRY OIL

The Imperial Redwater. named after Canada's largest oil field, slid down the ways in a perfect launching at Port Arthur last week.

Mrs. C. D. Howe, wife of Canada's minister of trade and commerce, christened the big ship with traditional champagne.

The hull took eight months to build but was launched in only seven seconds.

The new tanker and her sister ship, the Imperial Leduc, are the largest freshwater tankers in the world and the largest ever built in Canadian shipyards. They will go into service next spring, moving oil from Superior, Wis., to Ontario refineries.

Superior is the terminus of the 1,127-mile Interprovincial pipe line from Redwater. Each tanker is expected to move about five million barrels of oil in a season.

The Redwater is 620 feet in length, 68 feet wide and 35 feet in depth. Speed is 13 knots or 15 miles per hour, with turbines of 4,500 horse-power. Each ship will make a round trip betwn Sarnia and Suprior in five days.

The ships will carry a crew of 36.

The Imperial Redwater was built by the Port Arthur Shipbuilding Co. Ltd., for Pipe Line Tankers Ltd., at a cost of about $4 million. Imperial Oil will charter the ship for a 15-year period.

LETTER TO LOUISA

Religion Causes Friction In Life of Alberta Family

DEAR LOUISA:—I do not go to any church but I try to live a good life.

I give to charities and do my part in all good causes. My husband's people are all very ardent church workers and this is causing friction between us because I will not attend my church. Don't you think I should be allowed to do as I choose regardless of what they think?

M. G. L.

Answer:

You have a perfect right to do as you please, but I can't understand your attitude in this matter. It seems to me that if it will make for happier relations between yourself and your husband's family that it would be much smarter to go than to stay away. It is not necessary to accept the creed of a church in order to go and it is certainly not going to do you any harm.

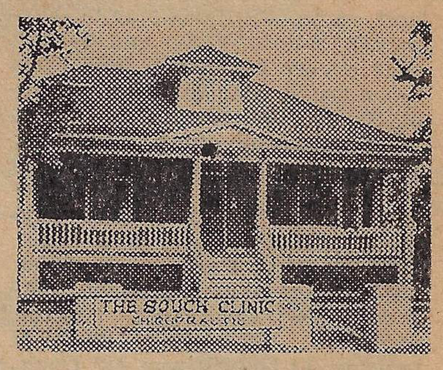

After all, you must believe in some supreme being for I don't think that any of us can accept the fact of the creation without thinking it the part of a plan. Some people think it is very sophisticated to say that they believe in nothing but they are usually people who are trying to attract attention to themselves by appearing different.

Spending an hour at church each Sunday seems to me a small price to pay for harmonious family life.

You hear people say they stay away from church because there are so many hpocrites in it and there are lots of sinners there. But if you will check up you will find more good people on the inside than on the outsidee. You will find, too, that the church stands for the higher things of life and that your community would be a much worse one than it is if it were not for the church's influence for good.

So why not give it a try and even if you do not accept all of a certain church's creed, it will not hurt you to attend it occasionally.

Address your letter to "Louisa," 10815 Whyte Ave.

HALF ALBERTA'S FOREST FIRES TRACED TO WINTER HUNTERS

Half of this year's forest fires in Alberta (up to midsummer) has been traced to carlessness of winter time hunters whose fires continued to smoulder under the snow and burst into flame months later, when the timber had dried. On the other hand, setlers' operations which were the chief causes of last year's fires are comparatively blameless, according to the Dept. of Lands and Forests.

Co-operation by the majority of Alberta's citizens this year resulted in a marked improvement compared with 1949, it is stated. More stringent regulations and stricter enforcement also helped. Last year's 184 prosecutions was an all-time high, but this year authorities have found it necessary to take proceedings against only about half that number.

The spring forest fire prevention campaign undoubtedly paid dividends in the opinion of forestry officials. Officials emphasized a ministerial order prohibiting the burning of all brush piles and stumps. Effective July 1, forest officers were authorized to issue permits in any area where there had been sufficient moisture to minimize the fire hazard and where regulations had otherwise been followed.

Canada's Eskimo population numbers less than 9,000.

Fabulous Climate

A lady from Los Angeles, visiting Tia Juana, bought an alleged genuine Mexican hairless puppy from a vendor for fifty dollars.

In six months the animal had grown into a huge mongrel about the size of a Newfoundland. Once again she visited the Mexican resort and encountered the same dog vendor. In no uncertain terms she told him what she thought about the deal.

The vendor listened to her accusations patiently in pained surprise, and finally he asked: "Senora, we're you leves?"

"In Los Angeles," was the impatient reply.

"Ah, w'at you expect, Senora? In those so wonderful climate, those litle pup she can's help grow beeg likea calf."
